Cost of Course: TVC Catalogue

Entry Requirements:

There are no entry requirements; this course is for complete beginners. People with limited amount of knowledge on the subject may join this course or use to refresh their knowledge. However, minimum age of entry is 14 years.

Course Description

The aim of this qualification is to offer students aged 14 – 16 yrs a flexible range of units. The units have been tailored in to a specialized learning package in an area of interest that delivers the basics of Engineering Technology.

- Introduction to working in engineering.
- Introduction to cutting, forming and assembling engineering.
- Introduction to electronics.
- Introduction to mechanical and electrical maintenance.

How will the course be delivered?

This is a practical course and the sessions will include tutor-led demonstrations, instruction, online tests, phase tests written work and repetition.

Will I need to study or practice outside the classroom?

It is always useful to practice your skills learned between sessions.

How will I know I'm making progress?

During the first session the tutor will discuss goals and current level in relation to the course. Based on this assessment, you will agree individual targets which you will record in your individual learning plan (ILP). You and your tutor will review your targets regularly to ensure that you are making progress; these will be written in your ILP

What will I need for the course?

Please come prepared with a note pad, pen and pencil. Any Personal Protective Equipment required will be supplied by Norpro Training.
