Course Description

Learn to use a range of carpentry techniques & learn safe working practices to complete a small project: Techniques that you will cover include:

- Health, safety and welfare in construction.
- Principles of building construction, information and communication
- Carry out first fix flooring, roofing, frames, partitions & stairs
- Carry out carpentry maintenance
- Set up and operate circular saw

How will the course be delivered?

This is a practical course and the sessions will include tutor-led demonstrations, instruction, online tests, phase tests, written work and repetition.

Will I need to study or practice outside the classroom?

It is always useful to practice your skills learned between sessions.

How will I know I'm making progress?

During the first session the tutor will discuss goals and current level in relation to the course. Based on this assessment, you will agree individual targets which you will record in your individual learning plan (ILP). You and your tutor will review your targets regularly to ensure that you are making progress; these will be written in your ILP

What will I need for the course?

Please come prepared with a note pad, pen and pencil. Any Personal Protective Equipment required will be supplied by Norpro Training.
