Course Description

If you are interested in working within the motor vehicle sector, then this is the place to start. This course will cover the foundation principles of:

- Health & Safety.
- Introduction to the retail Automotive Maintenance & Repair Industry.
- Tools and equipment.
- Principles of light vehicle steering and suspension systems.
- Routine cooling and lubrication systems checks.
- Routine wheel and tyre checks and braking system checks.

How will the course be delivered?

This is a practical course and the sessions will include tutor-led demonstrations, instruction, phase tests, written work and repetition.

Will I need to study or practice outside the classroom?

It is always useful to practice your skills learned between sessions.

How will I know I'm making progress?

During the first session the tutor will discuss goals and current level in relation to the course. Based on this assessment, you will agree individual targets which you will record in your individual learning plan (ILP). You and your tutor will review your targets regularly to ensure that you are making progress; these will be written in your ILP

What will I need for the course?

Please come prepared with a note pad, pen and pencil. Any Personal Protective Equipment required will be supplied by Norpro Training.
